Building Self-Belief CIO is coordinating a project in collaboration with Learning for Life, Consett Academy and Derwent Valley AAP. Our project aims to bring the community together, alleviate youth loneliness and work together to transform Learning for Life's sensory spaces.

We need your help! As part of the project we are hoping to get donations towards products for a new sensory room. This will help the learners by providing them with a more stimulating environment that will significantly improve their day to day lives at Learning for Life.

How you can help:

- Sign up to sponsor a particular item – we will source and buy this on your behalf, and send an invoice.
- Make a donation directly to Building Self-Belief CIO – go to our website buildingselfbelief.org – there is a donate button where you can donate directly. We will allocate the amount you spend to an item/towards our item.
- Donate equipment directly.
- Donate time? Do you know of any trades people who would be happy to lend a hand?
- Spread the word – do you know of any businesses or grants that you feel would be in a position to support our cause?

As a donor, you are invited to **our launch** of the sensory room on **Wednesday 20th May at 4.00pm** at Learning for Life, Herbert Street, Consett.

There will be refreshments and some entertainment. Most importantly, this will give you an opportunity to meet the young people who have benefitted from your kind support.

Please email or call us should you wish to support this programme

Thank you for your support.
